- c) For job purposes.
- d) For college admission purposes.

### **2. Audience for my Portfolio.**

- a) The organization or the company where I will apply for job in future.
- b) My customer, if I open my own business.
- c) Anybody who is interested in my works.

### **3. Goals of my Audience.**

- a) Find my works easy to get and easy to understand.
- b) Get the description, time, place and other information about my works.
- c) Get the source code if needed via GitHub.

### **4. Works I will include.**

- i. I will include my Web Site works and projects. Some of them will be my class works and some will be my voluntary works. Some of them are done by just html and css. Some of them are done by html, css, javaScript, jquery, php, wordpress.
- ii. I will include my design works, which are mainly done by Adobe software. Such as, Photoshop, Illustrator, Flash, InDesign.
- iii. I will include my animation, which I did in my 2d animation class using adobe flash.
- iv. I am not a professional photographer but I have some photography. I would also like to include them in my portfolio. They are mainly pictures of different parts of New York.
- v. If possible I would like to include some of my hobbies.
